

proEXPLO 2025

INSTITUTO DE INGENIEROS DE MINAS DEL PERÚ

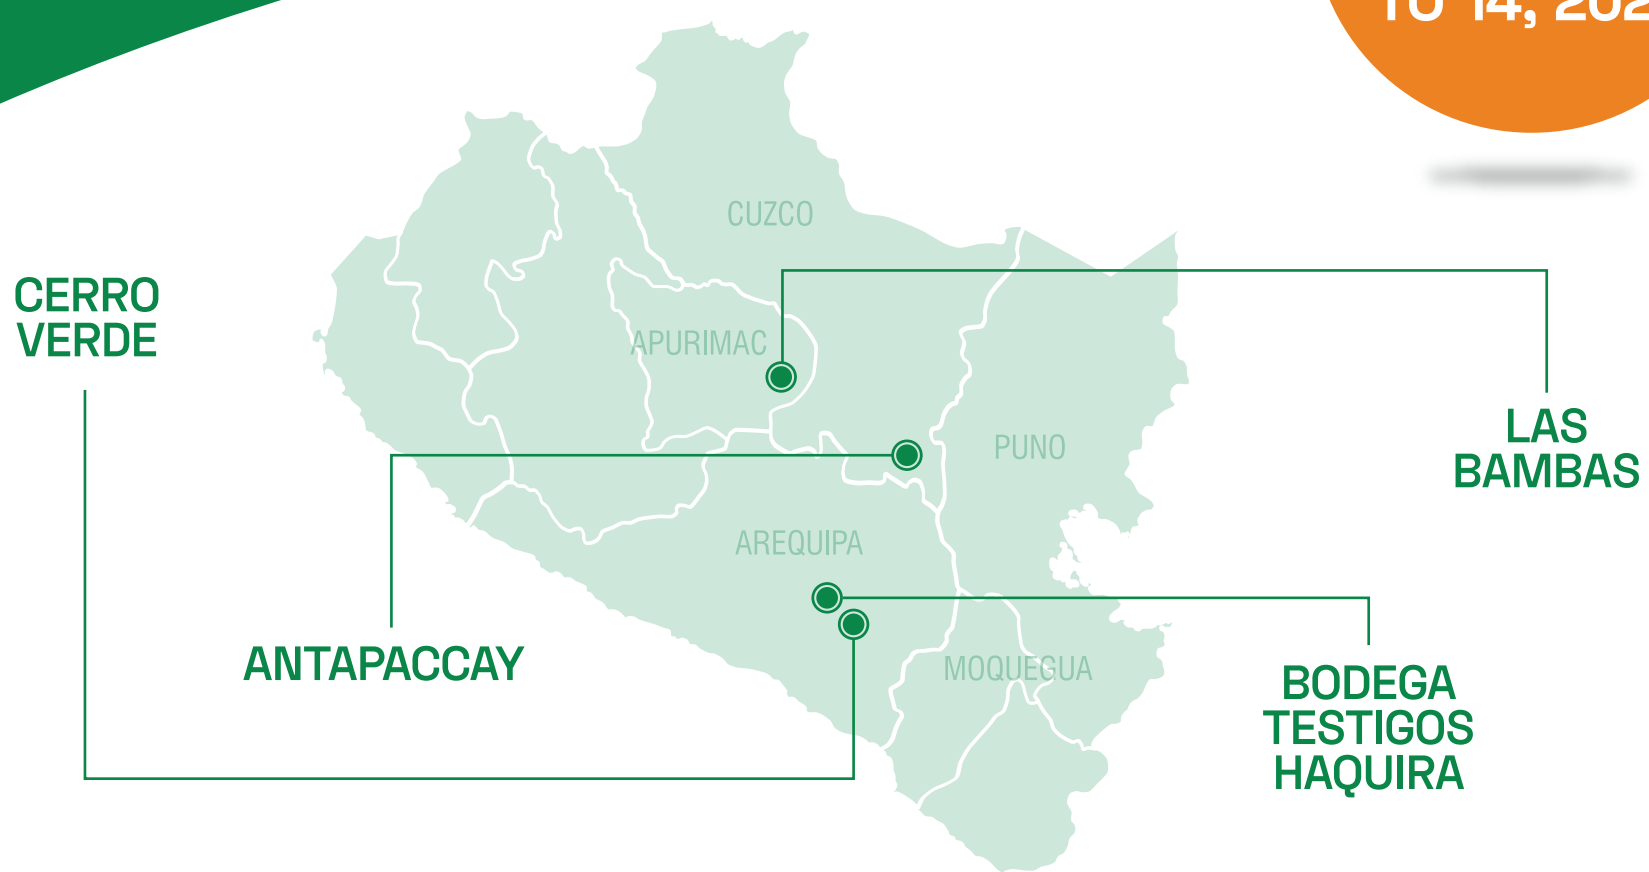

# Field Trip CERRO VERDE & ANDAHUAYLAS DISTRICT - YAURI

Route:

FROM MAY 8 TO 14, 2025

Instructor:

Víctor

Carlotto

Geological Engineer from the Universidad Nacional de San Antonio Abad del Cusco (UNSAAC), with Master's and PhD degrees from the University of Grenoble, France. With 24 years of experience as a professor at UNSAAC, he was Director of Regional Geology and Geoscientific Director at the Instituto Geológico, Minero y Metalúrgico (INGEMMET) for almost 10 years. He has worked for more than 6 years in BHP as Senior Exploration Geoscientist. He is an expert in generating new exploration areas and identifying opportunities for porphyry Cu, epithermal Au and transitional epithermal-porphyry systems. For the past three years he has been involved in applied scientific research in exploration and is currently working as a consultant. He has carried out projects for several mining companies, including Rio Tinto, Buenaventura, Antapaccay, Anaconda Perú, Yanacocha, among others.
